HEAD OF THE CLASS WITH THE ENGINEERING GROUPE

Woodbridge, VA — Employees from The Engineering Groupe went “back to school”, teaching a class at Auburn Middle School in Fauquier County. “Problem Solving, Measuring and Surveying” was the subject of study for these sixth grade honors class members.

The Engineering Groupe’s Ned Marshall, Dimitrios Konstantinou, Jonathan Wright and Jana Gilbert educated the class at Auburn Middle School, which is located in the beautiful Brookside Community as part of their close relationship with the community and the Fauquier County Public School System.

“It gives The Engineering Groupe great satisfaction knowing that we can help educate and interest the students of our community in the engineering and surveying industry,” says John S. “Skip” Groupe, IV, President of The Engineering Group, Inc. “We might be teaching some future Engineering Groupe employees.”

The Engineering Groupe has been working with the Auburn Middle School class throughout the year to bring special programs to them that enhance their learning experience

About The Engineering Groupe:

The Engineering Groupe is a premiere Virginia consulting firm offering a full range of professional services in engineering, planning, surveying and environmental services to prestigious clients.
