THE ENGINEERING GROUPE WORKS TO KEEP COMMUNITY BEAUTIFUL

FIRM PART OF VDOT'S ADOPT-A-HIGHWAY PROGRAM

Woodbridge, VA — On Saturday, October 15th, an Engineering Groupe team of 8 volunteers led by Denar Antelo picked up litter along a two mile stretch of Catons Hill Road. The team did this as part of the company's participation in the Virginia Department of Transportation's (VDOT) Adopt-a-Highway Program.

Four times a year, volunteers from The Engineering Groupe gather to clean-up the litter along Catons Hill Road. The program helps keep Virginia's roads clean of trash. Without individuals and organizations adopting a highway, VDOT would not have the ability to keep our roadways clean from trash. Last year alone, over 31,000 volunteer hours were utilized to pick up over 26,000 bags of trash along 1,900 miles of roads in Virginia.

"We believe community service is an important part of being a good corporate citizen," said John S. "Skip" Groupe, IV, President of The Engineering Groupe, Inc. "Our employees enjoy making a difference in the community in which they live and work."

About The Engineering Groupe:

The Engineering Groupe is a premiere Virginia consulting firm offering a full range of professional services in engineering, planning, surveying and environmental services to prestigious clients. Established in 1990, The Engineering Groupe is celebrating 20 years of providing consulting services to a broad range of clients from national homebuilders and commercial developers to municipal agencies.

The company is headquartered in Woodbridge, Virginia, with an additional office in Fredericksburg. The Engineering Groupe, Inc. has been ranked among the top 25 Engineering Firms in the Metropolitan area by Washington Business Journal. For additional information, please visit www.enggroupe.com.
